

Madhav E-Commerce Sales Insights (2018)

Overview :

The 2018 sales analysis of Madhav E-Commerce provides insights into revenue, profitability, and regional performance. The company achieved strong sales growth driven by electronics and furniture categories, though profit margins remain moderate.

Metric	Value
Total Sales	438K
Total Profit	37K
Profit Margin	8.44%
Average Profit per Order	73.93
Average Order Value (AOV)	875.54
COD Transactions	69.4%

Key Insights :

- **Top Performing States:** Maharashtra (**102K**) and Madhya Pradesh (**87K**) lead in both sales and profit.
- **Top Cities:** Indore and Pune deliver the highest profitability.
- **Category Breakdown:** Electronics (**37.9%**) and Clothing (**32.9%**) dominate sales.
- **Sub-Category Leaders:** Printers (**9K** profit) and Bookcases (**7K** profit).
- **Payment Trend:** COD remains dominant (**35.45%**)—indicating need for digital adoption.
- **Monthly Trend:** November peaks in both sales and profit, while May and July remain weakest.

Strategic Recommendations :

1. **Regional Focus:** Strengthen logistics and marketing in Indore, **Mumbai**, and **Pune**.
2. **Profit Optimization:** Improve margins in high-volume categories (e.g., **Sarees**, **Accessories**).
3. **Payment Shift:** Encourage digital payments via cashback and loyalty rewards.
4. **Seasonal Campaigns:** Utilize **Q4** festive season for targeted promotions.
5. **Cost Efficiency:** Re-evaluate pricing and supplier contracts to sustain profit margins.

Conclusion :

Madhav E-Commerce demonstrated solid sales growth in 2018 with strong regional performance in western and central India. However, the profit margin of 8.44% indicates room for improvement through better pricing, reduced COD dependence, and strategic promotional campaigns. By focusing on high-potential regions, profitable product categories, and digital payment optimization, Madhav E-Commerce can achieve sustainable growth and improved profitability in the coming years. `
